Student Of Week

by Sheila Rustin

Our outstanding student this week is Gloria Miriam Smith. A senior, Gloria is tall, blond, and good-looking. She came in to the world on November 24, 1944 in Fort Pierce, Florida.

Being given the responsible job of co-editor on the annual staff, her other activities include membership in Beta Club, of which she is vice-president, F. H. A., and the honor of being a Worthy Advisor in Rainbows. Gloria is an active member of the Community Methodist Church, where she sings in the choir and is an officer in the M. Y. F.

Charcoal broiled steak is at the top of her favorite food list, while her favorite class is English. Mr. Bowers takes the honors in the teaching department while the record she likes best is "When I Fall in Love."

Gloria's list of accomplishments includes being elected sponsor for the Belle Glade-Pahokee football game, attending Girl's state, and being elected Most Distinguished and Most Talented of the Superlatives.

Gloria has already put in her application to F. S. U. in Tallahassee. Her ambition is to be known who she is — an, they aren't telling.

D.C.T. Students

By Doris Binkley
(Editor's note: Throughout the school year, Doris Binkley, reporter for the Diversified Training Cooperative program, will give us a profile of a D. C. T. Student in each issue of THE RAM-PAGE.)

The first student we shall meet in the D. C. T. section is Elaine Prevatte. She is the daughter of Mr. and Mrs. H. M. Prevatte of Bean City, Florida. Elaine was born 17 years ago

You students who are absent so many times during the year should realize that you are hurting the whole school. We get new teachers not by our student enrollment but by our students' attendance. So don't complain about crowded classrooms or inconvenient schedules if you are unnecessarily absent.

If the FTA president can swing it and get a favorable vote, that organization may soon sponsor a Talent Show. All you talented people get ready to make fools . . . er, perform admirably.

Mike Morgan, the "vigorous high-splatter" in Richard Chappell's recent "My Pal Darryl" story and also a noted Yankee (ugh), promises to give us an article on the contrasts between going to school up North and going to dear ol' B. G. H. S.

The Art Club reports that their recent Art Bazaar was a great success. They sold almost all their art materials. They thank the public of Our Town and the surrounding area for the support they gave.

Those of you who missed Bishop Arthur J. Moore last week at the revival at the Methodist Church, really missed hearing a fine minister. Bishop Moore delivered one of the most inspiring sermons that we have ever heard. We hope he will return sometime in the near future.

We wonder if the Seniors are going on any trips after graduation. There are rumors about a trip to Nassau, Miami Beach, and even Washington, D. C. Strictly unconfirmed, of course.

Everyone is wondering who Henrietta Hearbeat is. She or he? is the wife of sage who writes advice to the lovelorn. He or she is a member of the Student Council representative — let's put them to work!

Home Economics Needed At Home And In Schools

Jobs for some 10,000 home economists in business, extension work and social welfare will become available over the next few years, according to Changing Times, the Kiplinger Magazine.

Reporting on a study by the American Home Economics Association, an article in the current issue of the magazine notes that demand is strong, not only because of the expanding use of home economists but also because turnover is very high. "That's not because of dissatisfaction with the work . . . it's because home economists practice what they preach," according to the editors of the magazine. "They enjoy advising families on how to run their affairs and they enjoy using the advice themselves in managing their own families."

To have a worthwhile school paper, the staff must have a cooperative student body. If you are not willing to support your paper with your money and your written contributions, you don't deserve one.

The Student Council is not doing its job for the paper. Perhaps more financial leadership can remedy this situation.

RAM-PAGE staff members: Get your material in on time this week.

If you would like to have your opinion aired on some issue pertaining to the school or current events, don't hesitate to turn your article in to the staff members or Mr. Tidwell.

A few of the people around the C. H. S. campus are complaining about the lack of school activities, especially the Seniors. Well, perhaps if the right people would be busy and old just sit around and gripe we WILL have more activities. The better idea is to use the Student Council representative — let's put them to work!

Teacher Of The Week

Mrs. Nedra G. Hill

Mrs. Nedra G. Hill, our Teacher of the Week was born and reared in Mississippi where she attended high school and college. She received her B. A. degree with a major in English from Blue Mountain College. She recently received her Master's degree from Mississippi State.

Mrs. Hill teaches Senior High English, Speech, and tenth grade English. Her husband is Carl A. Hill, Jr., our Biology teacher. The Hills have one child, Chuck, age 8.

Mrs. Hill's pet peeve is students who chew gum in her class. Her favorite saying is "Silence."

Mrs. Hill is sometimes kidded for her manner of speaking. It is called "polished English." It is jokingly said that if you woke, Mrs. Hill up in the middle of the night with a telephone she would say just like anyone else, "Goodness, what a crumb-bum!"

All kidding aside, Mrs. Hill is a very capable teacher and we are all glad to have her here at Belle Glade High.

WHAT'S WRONG WITH AMERICAN YOUTH?

Often when I ask individuals what is wrong with the young people of America and Our Town, the most frequent answer I get is: "They simply don't care." They don't care. They don't care. I have heard this spineless, foolish phrase so many times in relation to the citizens of our country, both young and old, that it makes me sick. Many Americans are becoming greedy, conniving, or full-of-the-quick-buck hustlers, unconcerned about the spread of Communism, having no regard for their fellow human beings, and little concern for the future of their children and their own souls.

This selfish attitude is prevalent. I am afraid, in much of America. Anyone who does not create awareness in them. Saturday Evening Post was surely heartened by the actions and characters of some of the young people. But this optimism was soon erased when the fact was presented that most young people are worried about nothing but their own sacred hides.

American youth today is soft and ignorant. While juvenile delinquency is not so terrible and rampant as some people would have you believe, the morals of our youth are sadly low. The youth of America is opposed to Communism and say that our capitalist system is better, but they don't know why. They believe in God and Christ but are completely ignorant of basic Christian precepts and act on nothing but need and dogma, and this is dangerous.

The young people of today are tortured and confused and neurotic because the older generation has left them with a world filled with doubt and fear and sorrow. They live from day to day not knowing whether there will be a war soon. And they know that most of them would die in such a nuclear war. But this realization of danger does not create awareness in them. No, it creates a mental wall between them and reality. They disregard the stimulating newsworthy programs of television and blast their minds with junk such as "Surfside Six" and nothing else. They flock to movies to see sex and violence soaked pictures and then ignore the artistic and informational. They dance the "twist" and blare their rock and roll records until all the sanity and concern in the future that they ever had is driven out of their confused minds.

They go to church, but while their thoughts are not on God or Salvation. They are thinking about clothes or hairdos or tonight's date or the opposite sex. They want money and security more than anything else. I think that some of them would sell their country down the river for an ounce of security. They howl about taxes and the big government, but did you ever see one refuse a Government handout? They want the Government to take care of them. They have had everything handed to them on a silver platter and will be lucky if they can get through life without their poor, tired parents bailing them out. They are so interested in their Government that half of them don't know the cabinet members or their Congressmen.

Tell me, Mr. Destiny, are we going to become the "gutless generation"? The people who care more about sex and security than the future and freedom? The group that would crawl on their bellies to the Communists rather than stand up for their rights? The generation of empty-headed hypocrites, with one hand on the Bible and the other on the pocketbook? We must stem this tide of defeatism and apathy that has gripped the people, both young and old, of our nation. We must arrive at some goals that will keep our heads above water. We have got to square our shoulders and once again fight in our hearts the battle of the future. We must have faith in our American way of life, our Christian ideals, and freedom. We must wake ourselves up and aim for something higher than doing a mediocre job. We must be Americans again!

ABC's For Seniors

Nearly 4,200 pedestrians were killed in night traffic accidents last year, the East Florida AAA Division reported today in urging school-age youngsters to wear white after dark.

William B. Wellons, Jr., Director of Traffic & Safety for the East Florida AAA Division, said that well over half of all pedestrian fatalities occurred during hours of darkness. He said reduced visibility on the part of both motorist and pedestrian plays a major role in the death toll.

"If you plan to walk at night, wear or carry something white so that motorists will be able to see you," the AAA Club official urged. "This precaution could save your life."

A safety poster illustrating the danger of walking after dark, is being distributed to schools in Florida as part of the regularly monthly safety education program of the East Florida AAA Division.

The new poster, designed by Lois May Hoffer, 12, a seventh grade student at Taft Junior High School, Canton, Ohio, was a first place winner in the American Automobile Association's National Traffic Safety Poster Contest. The prize was awarded by a panel of nationally-known judges. The poster will be produced and distributed by A A A Motor Clubs throughout the country.

Students Recommend....

This week The Ram-Page salutes Guy Darracott Wood III, better known around B. G. H. S. as Darryl. Our Student Council president, Darryl works with the sponsor, Mr. Tidwell, to improve our student government.

Darryl's other outside activities include membership in the Community Methodist Church, Demolay, and The Ram-Page staff.

Darryl is also obsessed with the idea that nothing is as good as a cup of STRONG coffee nor as bad as CONFORMITY. His favorite expression is "Every one to his own kicks."

Darryl's ambition is to study at Harvard to become a lawyer. But I understand that he is also thinking seriously of Florida State.

He can best be described as "the character in the red coat and the much used pipe." S. R.

Dr. Crooks Speaks To Ev. USDA Club

The Everglades USDA Club held its regular monthly luncheon meeting at the Community Building, Canal Point, January 3, 1962 with Mr. Mills H. Byrom, President, presiding. Donald Fisher, Program Chairman, introduced Dr. D. M. Crooks, Assistant Director of the Crops Research Station, U.S. Department of Agriculture, Beltsville, Maryland as guest speaker.

Dr. Crooks spoke highly of the Everglades Club and about USDA Clubs in general, reminding employees of their important role as members, to the public in general. One of the Club's objectives is to provide a channel permitting the Department many activities to be the most possible service to the public; and to assist through personal contact the 1 of 3 or 4 making the public of the Department's services.

Agriculture is the most important thing in man's life. Without it, man could not exist. Agriculture is food, clothing and shelter to man. Yet as compared to the 1 of 3 or 4 making their livelihood from agriculture some 30 years ago, now only 1 to 30 do. That means, in effect, that 29 out of every 30 people are dependent upon the agricultural worker and scientist for their fundamental existence. This is a load for the agricultural worker to carry, but it is one that he carries with pride. Whether he is trying to come up with a better犁 for rope or textiles, a better variety of sugarcane for sugar, or a tree that will grow taller and straighter, or a measuring device that will show the housewife the exact weight of a bag of radishes, each is contributing to the general health and welfare of the nation.

Dr. Crooks also delved into departmental policies that effect the individual scientists and their personal standings and possibilities for the future. Following Dr. Crooks off the cuff but highly interesting and enlightening talk, there was a question and answer period which was interesting to all members.

The club also enjoyed Dr. Denver P. Loupe, Sugarcane Specialist with the Louisiana Agricultural Experiment Station of L. S. U. as a guest. Introduced by Mr. P. H. Deschamps, Dr. Loupe, one of 24 agents in the sugar belt of Louisiana, spent the week at the Canal Point Sugarcane Station observing breeding and other research work being done there.

U. S. Marine Recruiter In Glades Regularly

According to Gunnery Sergeant E. L. "Pat" Walker, Marine Corps Recruiter in West Palm Beach, he is once again establishing regular recruiting trips to Belle Glade on the 3rd.

According to Sgt. Walker, the addition of another Marine Recruiter to the West Palm Beach Sub-Station is enabling him to schedule a monthly recruiting trip to the Belle Glade-Pahokee area. Under the new schedule he will be in Belle Glade on the 3rd, Thursday of each month from 9:30 a. m. until 12:30 p. m. While in Belle Glade Sgt. Walker can be located at the Selective Service Office.

At the present time, according to Sgt. Walker, the Marine Corps is offering guaranteed assignments into Aviation and other high assignments to those young men who are highly qualified. If you desire to know more about the world's finest military organization, contact Sgt. Walker on the days that he is in Belle Glade or write to him at the Post Office Building in West Palm Beach.

Lytal Chairman County Commission

Lake Lytal, a veteran of 20 years on the County Commission, was picked Monday by his colleagues to be chairman of the board for the coming year. Lytal, senior member of the five-man board, stepped up from his vice-chairman post he has held for the past year and will succeed Commissioner Ben DeWitt of Delray Beach as commission chairman.

Named vice chairman of the board was E. F. Van Kessel, Juno Beach, one of the two Republican members of the board who are rounding out their first year in the job.

Lytal was nominated for the top spot by Commissioner Paul Rardin, Canal Point, who described the West Palm Beach member as a "man who has never shirked his duties as a county commissioner. When there is a job to do, he gets it done."

Retiring chairman Sandy nominated Commissioner Van Kessel, noting that he is a man "who has done a splendid job during his first year on the board."

Chairman Lytal predicted that during the coming year the board will be confronted with "tremendous problems" that will need commission action.

In other reorganizational matters the commission reappointed all department heads and county employees for another year.

The Board also set the second and fourth Monday of each month as its regular meeting days and voted to have administrative sessions at the call of the chairman.

Commenting on the reappointment of department heads, Chairman Lytal commended the group by saying "we have some of the finest department heads in the state." His observation was backed by Vice Chairman Van Kessel, who said since he had been on the board he had found no reason for wanting to replace any department head. "We hope they will stick with us—we need them," he said.

Glades District Fla. County Size

Commissioner Paul Rardin, Canal Point, who two weeks ago said third reorganization of commission districts gave him one of the largest in the state, came up with some further facts and figures Monday to prove his point.

He said the population of his district estimated at 34,162 now and set at 31,919 in the last census, is greater than the population of 41 Florida counties.

In area, he said, District Five is greater than the area of 62 of the state's 67 counties. Area of Rardin's district is 1,779 square miles—1,073 land and 706 square miles of water in Lake Okeechobee.

Vice Chairman E. F. Van Kessel listened to Rardin's report and warned the other members of the board to keep an eye on District 1—it's not the largest, Van Kessel said, but it's going to be the busiest and fastest growing area in the county in the coming year, he predicted.

"I proved it in my own car... Union GS-1000 Energy Fuel gives better gasoline mileage"

Says Albert Haug of Sarasota

I've been using Union's new GS-1000 Energy Fuel ever since they first introduced it. My own driving tests have proved to me that GS-1000 does what Union claims it will. I'm getting almost two extra miles per gallon. And I can feel the increased power GS-1000 gives my engine.

Without a doubt this is the best gasoline I have ever used. I'm recommending Union GS-1000 Energy Fuel to all my friends because I know they will like both the improved performance and greater savings it gives."
